TOXICOLOGY

Subject index of volume 130

Aluminium distribution; Deferoxamine; 3-Hidroxypyridin-4-ones; Aluminium excretion; Rats **130**, 175

Aluminium excretion; Deferoxamine; 3-Hidroxypyridin-4-ones; Aluminium distribution; Rats **130**, 175

Aminoguanidine; Cisplatin; Platinum; Nitric oxide; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

BHT metabolism; Tumor promotion; Cytotoxicity; Cytochrome P450 2B; Lung cancer cells **130**, 115

Blood-brain barrier; Cisplatin; Platinum; Nitric oxide; Prostaglandin; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

Ca^{2+} channel blockers; Methapyrilene; Hepatotoxicity; Mitochondria; Cyclosporin A **130**, 79

CCl4; Liver; Sex; Repair; Nutrition; Rats **130**, 95

Chlorpyrifos; Tolerance; Neuro-immune mechanisms **130**, 17

CHO cells; Nicotine enantiomers; Oxidative stress **130**, 155

Cisplatin; Platinum; Nitric oxide; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

Comet assay; Deltamethrin; Pyrethroid insecticides; Genotoxicity; SCE; Micronuclei **130**, 129

Cyclosporin A; Methapyrilene; Hepatotoxicity; Mitochondria; Ca^{2+} channel blockers **130**, 79

Cytochrome P450 2B; Tumor promotion; Cytotoxicity; Lung cancer cells; BHT metabolism **130**, 115

Cytokine (receptor); Immunotoxicology; Gene expression; Gene sequence; Hybridisation; RT-PCR **130**, 43

Cytotoxicity; Tumor promotion; Cytochrome P450 2B; Lung cancer cells; BHT metabolism **130**, 115

Deferoxamine; 3-Hidroxypyridin-4-ones; Aluminium distribution; Aluminium excretion; Rats **130**, 175

Deltamethrin; Pyrethroid insecticides; Genotoxicity; Comet assay; SCE; Micronuclei **130**, 129

Dichloroacetate; Liver glycogen; Glucose; Insulin **130**, 141

Digitonin fractionation; Glutathione; Renal proximal tubular cells; Renal distal tubular cells; Mitochondrial GSH transport; Redox status **130**, 1

Free radicals; 2-Nitropropane; Lipid peroxidation; Sorbitol dehydrogenase; Melatonin; Reactive oxygen species **130**, 183

Gene expression; Immunotoxicology; Cytokine (receptor); Gene sequence; Hybridisation; RT-PCR **130**, 43

Gene sequence; Immunotoxicology; Cytokine (receptor); Gene expression; Hybridisation; RT-PCR **130**, 43

Genotoxicity; Deltamethrin; Pyrethroid insecticides; Comet assay; SCE; Micronuclei **130**, 129

Genotoxicity tests; Omeprazole; In vitro and in vivo assays **130**, 29

Glucose; Dichloroacetate; Liver glycogen; Insulin **130**, 141

Glutathione; Lens; Lead poisoning; NAC; Succimer; Protein bound sulfhydryls **130**, 167

Glutathione; Renal proximal tubular cells; Renal distal tubular cells; Digitonin fractionation; Mitochondrial GSH transport; Redox status **130**, 1

Hepatotoxicity; Methapyrilene; Mitochondria; Cyclosporin A; Ca^{2+} channel blockers **130**, 79

3-Hidroxypyridin-4-ones; Deferoxamine; Aluminium distribution; Aluminium excretion; Rats **130**, 175

Hybridisation; Immunotoxicology; Cytokine (receptor); Gene expression; Gene sequence; RT-PCR **130**, 43

PII: S0300-483X(98)00130-9

Immunotoxicology; Cytokine (receptor); Gene expression; Gene sequence; Hybridisation; RT-PCR **130**, 43

Indomethacin; Cisplatin; Platinum; Nitric oxide; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester **130**, 107

Insulin; Dichloroacetate; Liver glycogen; Glucose **130**, 141

In vitro and in vivo assays; Omeprazole; Genotoxicity tests **130**, 29

Lead poisoning; Lens; NAC; Succimer; Glutathione; Protein bound sulfhydryls **130**, 167

Lens; Lead poisoning; NAC; Succimer; Glutathione; Protein bound sulfhydryls **130**, 167

Lipid peroxidation; 2-Nitropropane; Sorbitol dehydrogenase; Melatonin; Reactive oxygen species; Free radicals **130**, 183

Lipopolysaccharide; Cisplatin; Platinum; Nitric oxide; Prostaglandin; Blood-brain barrier; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

Liver; CCl4; Sex; Repair; Nutrition; Rats **130**, 95

Liver glycogen; Dichloroacetate; Glucose; Insulin **130**, 141

Lung cancer cells; Tumor promotion; Cytotoxicity; Cytochrome P450 2B; BHT metabolism **130**, 115

Melatonin; 2-Nitropropane; Lipid peroxidation; Sorbitol dehydrogenase; Reactive oxygen species; Free radicals **130**, 183

Methapyrilene; Hepatotoxicity; Mitochondria; Cyclosporin A; Ca^{2+} channel blockers **130**, 79

Micronuclei; Deltamethrin; Pyrethroid insecticides; Genotoxicity; Comet assay; SCE **130**, 129

Mitochondrial GSH transport; Glutathione; Renal proximal tubular cells; Renal distal tubular cells; Digitonin fractionation; Redox status **130**, 1

Mitochondria; Methapyrilene; Hepatotoxicity; Cyclosporin A; Ca^{2+} channel blockers **130**, 79

NAC; Lens; Lead poisoning; Succimer; Glutathione; Protein bound sulfhydryls **130**, 167

Neuro-immune mechanisms; Chlorpyrifos; Tolerance **130**, 17

N^G-nitro-L-arginine methyl ester; Cisplatin; Platinum; Nitric oxide; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; Indomethacin **130**, 107

Nicotine enantiomers; Oxidative stress; CHO cells **130**, 155

Nitric oxide; Cisplatin; Platinum; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

2-Nitropropane; Lipid peroxidation; Sorbitol dehydrogenase; Melatonin; Reactive oxygen species; Free radicals **130**, 183

Nutrition; CCl4; Liver; Sex; Repair; Rats **130**, 95

Omeprazole; Genotoxicity tests; In vitro and in vivo assays **130**, 29

Oxidative stress; Nicotine enantiomers; CHO cells **130**, 155

Platinum; Cisplatin; Nitric oxide; Prostaglandin; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

Prostaglandin; Cisplatin; Platinum; Nitric oxide; Blood-brain barrier; Lipopolysaccharide; Aminoguanidine; N^G-nitro-L-arginine methyl ester; Indomethacin **130**, 107

Protein bound sulfhydryls; Lens; Lead poisoning; NAC; Succimer; Glutathione **130**, 167

Pyrethroid insecticides; Deltamethrin; Genotoxicity; Comet assay; SCE; Micronuclei **130**, 129

Rats; CCl4; Liver; Sex; Repair; Nutrition **130**, 95

Rats; Deferoxamine; 3-Hidroxypyridin-4-ones; Aluminium distribution; Aluminium excretion **130**, 175

Reactive oxygen species; 2-Nitropropane; Lipid peroxidation; Sorbitol dehydrogenase; Melatonin; Free radicals **130**, 183

Redox status; Glutathione; Renal proximal tubular cells; Renal distal tubular cells; Digitonin fractionation; Mitochondrial GSH transport **130**, 1

Renal distal tubular cells; Glutathione; Renal proximal tubular cells; Digitonin fractionation; Mitochondrial GSH transport; Redox status **130**, 1

Renal proximal tubular cells; Glutathione; Renal distal tubular cells; Digitonin fractionation; Mitochondrial GSH transport; Redox status **130**, 1

Repair; CCl4; Liver; Sex; Nutrition; Rats **130**, 95

RT-PCR; Immunotoxicology; Cytokine (receptor); Gene expression; Gene sequence; Hybridisation **130**, 43

SCE; Deltamethrin; Pyrethroid insecticides; Genotoxicity; Comet assay; Micronuclei **130**, 129

Sex; CCl4; Liver; Repair; Nutrition; Rats **130**, 95

Sorbitol dehydrogenase; 2-Nitropropane; Lipid peroxidation; Melatonin; Reactive oxygen species; Free radicals **130**, 183

Succimer; Lens; Lead poisoning; NAC; Glutathione; Protein bound sulfhydryls **130**, 167

Tolerance; Chlorpyrifos; Neuro-immune mechanisms **130**, 17

Tumor promotion; Cytotoxicity; Cytochrome P450 2B; Lung cancer cells; BHT metabolism **130**, 115
